After the presentation of I3E project and its aims the agenda for further discussion was proposed:

- State of the art in developed countries,
- European initiatives and strategic documents,
- National strategies,
- The starting point for the Strategic Research Agenda (SRA) in the field of industrial informatics,
- Suggestions.

Within the first point of agenda, Prof. dr Vesna Mandic, has expressed she's view on the state of development of IT industry in developed countries and their specific applications.

As an important European initiatives in these areas a list of 30 European Technology Platforms are presented and two are explained in detail, MANUFUTURE and ARTEMIS.

National Strategies related to industrial informatics are presented:

- The Strategy of scientific and technologic development of the Republic of Serbia in 2009-2014,
- The Strategy of Information Society development in Serbia 2006,
- Strategy for the development of Telecommunications in Serbia 2006-2010 (with review done in 2009).

There are also shown some achievements of the SCORE project, in defining research directions in the field of ICT in Serbia, as well as initial SRA.

At the end of the meeting the following conclusions are agreed:

1. Participants of the Concensus Building Meeting have recognised the potencial of networking and expressed their readiness for joint action in the development of SRA for Serbia in the areas of Industrial Informatics and Embedded Systems.
2. The potential of networking is recognized, through sharing of experiences, creating a platform for new initiatives and projects and promotion of results.
3. Initiative to extend the Serbian Software Cluster and Embedded.rs cluster with R & D institutions and enterprises from Central Serbia is accepted.
4. Deadline (15th January) for sending suggestions and ideas is agreed.
5. In order to extend the network of stakeholders in Serbia and effective communication among the participants of the meeting, project team will form on google groups e-mail group with unique address (i3eserbia@googlegroup) which will be used in further communication among the stakeholders.
6. Date of the next meeting of the project team and representatives of both clusters will be determined later and it will be held in Belgrade.
